

Dana Countryman's GIRLVILLE!

PRESS RELEASE

TEENSVILLE RECORDS HAS JUST RELEASED DANA COUNTRYMAN'S LATEST ALBUM, "GIRLVILLE!"

Countryman has written and recorded three albums of his particular brand of "retro-pop" over the past three years, but this album is a little different. "For over 30 years, I've been a fan of early '60s 'girl groups', and I've been wanting to write and record songs in that style. I just love the innocence of that "Pre-Beatles" period, and I really wanted to capture that era musically. I've studied the work of the classic Brill Building songwriters, so I decided to challenge myself to write brand new songs that sound like they would have fit in with the pop hits of those days."

Although Countryman usually handles the lead vocals on his albums, "GIRLVILLE" doesn't actually feature a single lead vocal by him. He says, "My idea was to use the best female lead vocalists I could find, and I purposely sought out singers who had voices that could pass for teenagers' voices, but who actually were adults!"

Ladies handling the lead vocals on "Girlville" include **Lisa Mychols, Molly Felder, Kathy Hettel, Tricia Countryman, Julie Johnson Sand, Andrea Perry, Kelly Harland** and **Lisa Jenio**.

"With the help of two collaborators, Frank M. Young, and Frank Buttgerit, I wrote 19 songs from the point of view of a 16-year old girl, living back in the early '60s", Countryman says.

As on his previous albums, Countryman plays most of the instruments, but he also calls in his favorite instrumental soloists, which for this album include Klaatu's **Dee Long** on lead guitar, and saxophonist **Jon Goforth**.

Alan Haber of **Pure Pop Radio** says, "Dana Countryman's 'GIRLVILLE' is one of the freshest, most absorbing, fun albums I've heard in a very long time! I think more than a few feet will be tapping to these great songs. This is quite simply a fantastic album!" Michael McCartney of radio's **The Time Machine** adds, "Dana Countryman's latest musical album project GIRLVILLE is phenomenal. The melodies and lyrics with the arrangements are absolute perfection. GIRLVILLE is pure pop bliss."

"*Dana Countryman's Girlville!*" is available as a physical CD in stores and online, and as a digital download from iTunes, and other worldwide digital outlets.
