

POP2! The Exploding Musical Mind of Dana Countryman

PRESS RELEASE

Dana Countryman's newest album "**Pop2! The Exploding Musical Mind of Dana Countryman**" has been released on Sterling Swan Records. The "**Pop2!**" album was created in less than a year after Countryman's previous 2013 album "**Pop! The Incredible, Fantastic Retro Pop Music of Dana Countryman.**" The new album features 14 sparkling new original vocal pop songs, written in many classic 'retro' pop styles."

Over the years, Dana Countryman's music has been featured many times on radio and television. His tunes have been heard on COMEDY CENTRAL, THE DR. DEMENTO SHOW, FOX TELEVISION, THE JERRY LEWIS TELETHON, THE ARTS & ENTERTAINMENT NETWORK, among others. He has performed on **THE ARSENIO HALL SHOW** twice, and in a television commercial for The American Cancer Society, he once appeared on camera as a "giant potato" (!!) (He also wrote the commercial.)

In 2006, Countryman entered into a musical partnership with legendary pioneer electronic musician **JEAN-JACQUES PERREY**, and together they recorded two CDs of crazy electronic Moog music for Hollywood's *Oglia Records*. The duo appeared in concert many times together, both in Europe and in America, and their song "*Chicken On The Rocks*" was featured on Comedy Central's TV series, "**SOUTH PARK**".

Gilbert O'Sullivan, Grammy Award-winning singer-songwriter says:
"Dana's music calls to mind and fully evokes in an enjoyable way, *The Beach Boys* and *The Carpenters*, -- musically and harmony-wise --, which is no bad comparison!"

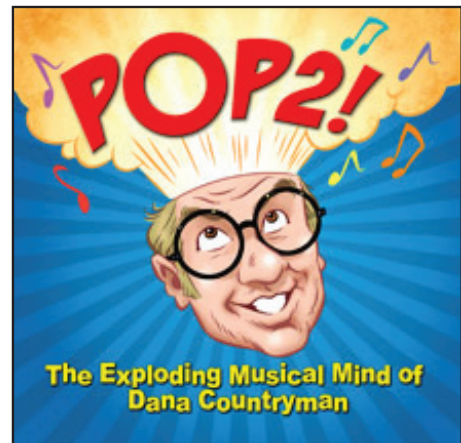

Blitz Magazine says:

"Dana's songs take various cues from such singer/songwriter movement stalwarts as *Eric Carmen*, and the *Carpenters*. Countryman is a remarkably gifted tunesmith. His album is an uplifting celebration of musical diversity. Fresh and invigorating pop!"

Countryman's previous album made the list of **INTERNATIONAL POP OVERTHROW's** "*Best of 2013.*" Currently, "*Jealous Heart*" a new song from Countryman's "Pop2!" album is being featured on **International Pop Overthrow's CD set, Volume Seventeen**. Another new song "*Good Radio Day*" has been getting airplay on several stations in the Hawaiian radio market.

"**Pop2! The Exploding Musical Mind of Dana Countryman**" is available as a physical CD from Amazon.com, and CDBaby, or as a digital download on iTunes, and other worldwide digital outlets.
